Many Asian Americans, South Asians, and Pacific Islanders are also lesbian, gay, bisexual, or transgender. We urge you to support immigration reform that:

- Strengthens all families by promoting family reunification, reducing visa backlogs, and recognizing bi-national same-sex couples.
- Protects workers with labor protections and expands professional worker visas.
- Preserves civil rights, especially for Muslims, South Asians, and Southeast Asians, and ensures constitutional due process.
- Shows compassion and allows the undocumented to legalize, supports undocumented young people to go to college, and eases the application for political asylum.

Sincerely,
